

## **Full-Time/Part Time Veterinarian for Central Alabama Mixed Practice**

We are in search of an experienced Veterinarian to work in a multi-veterinarian practice. We are seeking an individual who is a team player and likes working in a high volume environment. The right candidate must be self motivated, honest, loyal, and dedicated.

Our practice is 20 plus years old and is located 36 miles south of Birmingham, Alabama off of Interstate 65. Calera, Alabama population had more than tripled to 11,620, making it the fastest-growing city in Alabama. It is a diverse community with plenty of activities that provides a big city atmosphere, but yet possesses the country (rural) aspects of hunting, fishing, and horseback riding.

This position is for an individual who is interested in predominately small animals and enjoys seeing an array of untypical small animal cases.

A typical work week includes 40 hours with no after hour small animal emergencies; these are referred to the local emergency clinic. There is also opportunity for part time employment (if not looking for full-time work), so please apply. Options are available for flexible hours. Hours can be discussed based on experience and hospital's requirements.

There are 13 employees with 1 practice manager, 1 office manager, 3 receptionists, 3-4 technicians and 2 kennel workers.

### **Description of hospital and capabilities**

- 4 exam rooms, treatment area, surgery suite and boarding facility
- In-house laboratory capabilities for selected blood chemistries utilizing the IDEXX Catalyst One and LaserCyte blood analyzers. We also have a close association AL State Lab, Auburn University and Michigan State for external full-service clinical and pathological laboratories.
- Digital radiology
- Orthopedic surgeries, Class IV laser therapy and cryotherapy treatment
- Complete Dental Suite & Grooming Area
- Complete in-house pharmacy – large inventory of established pharmaceuticals as well as many of the newest products
- Patterson Veterinary Software System (INTRAVET server based software with 9 terminals throughout the hospital)

Pay based on experience. Benefits will be discussed. Our hospital is very flexible, and we stress high quality medicine with an emphasis on good communication and relationships with our clientele. We work on a small number of exotic animals, as well as working closely with the local humane society and animal rescues.
