Clinic/Practice Name	All Creatures Veterinary Hospital
Street Address	4549 Hwy. 62 West
City	Mountain Home
State / Province / Region	AR
Postal / Zip Code	72653
Country	United States
Position Available (Title, Dates, and Job Description):	<p>We have a job opening at All Creatures Veterinary Hospital in Mountain Home, AR. We are a 7- 1/2 doctor practice, one of the largest in the state. We are a 80/20 small and large animal mixed practice. We practice very high quality medicine with digital X-ray, 3D color digital ultrasound, Digital dental Xray, advanced dentistry, Sevo and isoflurane gas anesthesia, ECG, pulse ox, endoscopy, tonometry, top of the line lab capabilities, including in house phenobarb, thyroid, ACTH stim testing, cytology, allergy testing, titanium bone plating and other advanced surgical capabilities, and much more. We have a food animal barn with chutes, stalls, pens, lab and tilt table. Our heated equine barn has stables, stocks turn out pens, powerfloat, IV fluids, labs and Xray. We also have a fully stocked 3/4 ton 4X4 vet truck with a full Portavet box.</p> <p>We also are north Arkansas' wildlife clinic for the State Game and Fish. (yes deer, squirrels, rabbits, bears, eagles, and even an alligator). We have an apartment on site for our very healthy intern program. Think of a mini me version of LSU vet school. The best part...Ask Gretchen Morgan or Alex Canfield (class of 2017) at LSU- We start new grads at \$70k per year, plus insurance, continuing ed stipend and professional fees. Also, we have one veterinarian off every week at full pay. This means you average 9 weeks paid vacation per year. Nine days off in a row, 9 times per year isn't too shabby.</p> <p>Our work day starts just before 8 and usually ends about 5. Our vets are on call one night per week, and average about 1-2 calls per night on the night of call and pocket the \$85 after hours fee. Our clinic is open 8-5 Monday through Friday, and 3 vets work an 8-12 shift on Saturday am. We each take one weekend on call (every 8th week) and keep the \$85 emergency fee per call. If you have the weekend's call, you are off Wednesday and Thursday of that week. If you work a half day on Saturday, you are off all day Tuesday. Therefore you average less than 5 days per week that you do work. Case load averages 8 or less cases per day. Our staff ranges from 27 years of experience to recent grads, male and female. You are free to pursue your interests while enjoying the full support of our large staff of doctors, techs and support staff. We have won the area's best Veterinary Hospital Award every year since it began. Mountain Home, AR is within 15 miles of two very large crystal clear lakes and 3 beautiful clear rivers, including the Buffalo National River and two of the nation's top trout rivers. Our doctors enjoy hiking, biking, water sports, scuba diving, canoeing, kayaking, horseback riding, 4 wheeling, motorcycling, hunting, fishing, golf, softball, volleyball, nearby shopping and amusement parks, and of course plenty of time to travel. We are looking for an energetic, motivated, team member who</p>

will cater to our customers, love their animals, get along with their co-workers and continue to grow as a veterinarian. You must be willing to learn to be proficient enough at both small and large animal medicine to handle the most basic needs during a weekend on call. Otherwise you are free to explore your other interests in small animal medicine, surgery, dentistry, diagnostics, emergency medicine, wildlife or exotic medicine, food animal or equine. We are a very diverse group with many interests and skill sets. Look us up on our website or on Facebook.
