Clinic/Practice Name	Trumann Animal Clinic
Street Address	1121 Hwy 69 W
City	Trumann
State / Province / Region	AR
Postal / Zip Code	72472
Country	United States
Position Available (Title, Dates, and Job Description):	<p>Want to practice high-quality medicine with small-town compassion? Trumann Animal Clinic in Trumann, Arkansas has that to offer, and much more. Trumann is 10 minutes from Jonesboro, population 60,000, and 60 minutes from Memphis, population 600,000. The hospital has many amenities, including fully trained, competent staff, digital x-ray, complete IDEXX blood machines with full IDEXX support, EKG, blood pressure monitor, human grade dental unit, acupuncture, cold laser, good working relationships with area clinics, regular continuing education meetings for all staff, active social media presence, mobile house-call service, board-certified radiologist on staff, digital and paper records, and a professional but relaxed atmosphere.</p> <p>The Trumann area has many excellent school districts, 2 large hospitals in Jonesboro, low traffic congestion, easy commute, low crime rates, low cost of living, many options for home ownership, from urban to rural, and opportunities for outdoor activities are abundant, including duck hunting, and fishing.</p> <p>This successful practice was established over 30 years ago, but, speaking as a long-time relief veterinarian, it is one of the best practices I have ever worked, and one of the most current.</p> <p>The other huge opportunity here is that this practice is about to start construction of a new building, due to right-of way issues with the new highway construction. The new associate will have some influence in the construction, and also have buy-in opportunity.</p> <p>If interested, please send resume to catdoc_56@yahoo.com or contact Dr. Norette Underwood at 870-483-6275</p>
